

Title : Lights Of December

Composer : Clement Chow

Lyricist : Clement Chow

The street lights are bright
The places are lit
People caught up in its glow

It's the time of the year
We'll bring you some cheer
Cause it's been a hard year, we know **(2X)**

Deep in December
We held hands together
Embracing a little romance
Sharing the love of Christ our saviour
Our hearts join the song and the dance **(2X)**

CHORUS:

The lights of December
We'll always remember
The warmth of the night and its glow
The lights of December
let's share it together
The love we have come to know

What a wonderful sight
To a colourful night
But let us all never forget
That dark is the night
And there are people who cry
Just thinking that nobody cares **(2X)**

As we reflect, the message it brings
To our souls, there is peace within
The joy it brings
