

Title : Thank You

Composer : Hillary Francis

Lyricist : Hillary Francis

Out of you I came to be
With your love I now can see
Everything you do for me
Every moment endlessly
You taught me how to read and write
You want my future to be bright
You showed me love that I may love
You gave me strength that I may serve

Hope that I would carry on
Know the right from the wrong
Made me happy when I'm sad
For all I have I am glad
You gave me shelter from the rain
You take away the hurt and pain
You sacrifice your precious time
You made sure all is fine

I feel it deep within my heart
The wonders of your love
God bless and keep you in his heart
With graces from above
Heaven holds a place for you
All the little children too
When will I know love like this
Of eternal bliss

I'm so proud of both of you
All you've done to see me through
Working days and working nights
All your life to provide
I will be here when you grow old
I'll keep you warm when you are cold
I know your love is true
From my heart ... THANK YOU
