

Title : Basement

Composer : Sonya Tracy

Lyricist : Sonya Tracy

Walking down the street one day
See what's going on
There's trouble in the area
There's something really wrong
Hey mother can you hear me?
Thru the concrete and the steel
Poison filled my body
And it took away my youth
Wooh....
A revolution burning thru
A new religion
A whole new you
A meaning in life
You decide
Wooh....
Walking down the street one day
See what's going on
There's trouble in the area
There's something really wrong
Hey mother can you hear me ?
Something's going on....
