

Title : I, I, I (Feat M. O. B)

Composer : Case Woo & Terry Lee

Lyricist : Terry Lee

Chorus

I, I, I don't wanna be caught up no more cos baby.
U, U, U, your heart is so untrue yeah baby
I, I, I don't like the way you're treating me so baby
I & U are no more, no more, no more

Verse

You keep on tellin me lies make me feel like I'm really special
But I got a man like you in my life
You keep on tellin me things that you know I like to hear
But when I'm needin you you're never near
Baby I loved you, you know you had me to yourself
Boy I adored you, no one could take your place
Stayed by your side and, I was your best friend
But look what happened

Chorus

Verse

Your stories are so, so incredible that you have sound so surreal
But when I stop to think about it, it don't really make much sense
I need a man not a boy, no offence
Baby I loved you, you know you had me to yourself
Boy I adored you, no one could take your place
Stayed by your side and I was your best friend
But look what happened

Chorus

This is goodbye, I've thought it through
Don't wanna waste a minute of time
Don't try to talk now, it'll do no good
Go get on with your life
I'm better off without you
(M.O.B rap)
