

Title : We're Over

Composer : Ricky Ho

Lyricist : Belinda Foo

Love, we always dream would last forever
I never thought it'd be this way
Something has changed
We're now like strangers

I'm no longer the girl you loved before
My hopes have changed
Yet my feelings for you
will never die

Chorus:

Hanging on to dreams of yesterday
My heart is prompting me to stay
Will I have the strength to leave it
all behind?
Knowing that I need to break away
Time for us t o go our way
We're over
As lovers but not friends

Who knows what the future holds for us
We should just part as friends today
Who can outlast this world of changes?

Don't give it all up so easily
We're worth the try
We gave it a shot and now we've through

Chorus
